Clayton Shagal Intensive Eye Treatments...

It's been said that the eyes are the windows to one's soul... If that's true, then wouldn't it make sense to brighten those beautiful eyes? Now you can with Clayton Shagal's Intensive Eye Treatments!

Eye Rejuvenation for the Ages...

Begin the eye contour treatment with one of Clayton Shagal's multi-action cleansers that are gentle enough to use around the eyes and effective enough to remove eye make-up. For daily nourishment of the deep layers of the skin, the Clayton Shagal Collagen Gel Plus may be used in the evenings in lieu of a surface moisturizer.

To soothe fine lines and wrinkles for premature, mature, or aging skin around the eye contour, users can enhance their eye rejuvenation treatment with Clayton Shagal's Hyprocel Gel or Hyprocel Extract.

The Clayton Shagal Hyprocel Gel is an ideal eye contour gel for those seeking to prevent the formation of fine lines and wrinkles or for those experiencing the onset of crow's feet.

For a much more powerful anti-wrinkle eye treatment, the Clayton Shagal Hyprocel Extract is highly recommended. This eye serum is infused with a blend of hyaluronic acid, ceramides, and cytokines to dramatically soften the appearance of crow's feet.

Both Clayton Shagal Hyprocel products may be used morning and evening. For added moisture during the day, use a surface cream to complete your eye rejuvenation treatment.

SAY GOOD-BYE TO DARK CIRCLES!

Although dark circles, under-eye bags, and puffiness may be hereditary, they may also be caused by natural aging, lack of sleep, tiredness, or stress. As the skin ages, there is a natural slowdown in the production of collagen and elastin, which results in the loss of skin laxity, the formation of unwanted wrinkles, and uneven skin tone.

By using the Clayton Shagal Hyprocel Gel, that is comprised of proteoglycans which function to encourage cellular production of collagen and elastin, users can mitigate dark circles and under-eye bags. Alternatively, the Clayton Shagal Hyprocel Extract, with its cytokines, accelerates collagen and elastin production even further.

Try incorporating the Clayton Shagal Cucumber & Avocado Mask overnight once a week to calm and refresh tired eyes!
